Wilbur-Ellis CBR II Broadcast	7	7	2	7	7	2-15

These spreader settings are approximate. If your spreader is not listed above, determine if you have a rotary or drop spreader; then, looking at the dial on your spreader, check the span of numbers on the dial. Referring to the list above, find a rotary or drop spreader (depending upon which one you have) with the closest number span to the one on your dial and set your spreader accordingly.

The spreader settings work most efficiently when your spreader is calibrated. To calibrate your spreader, refer to the Virginia Cooperative Extension Office's directions at <http://pubs.ext.vt.edu/430/430-017/430-017.html>.
